Note to Editors:

This survey was published in the first week of June 2023, covering the second quarter of 2023. There were 58 SME owner manager respondents. The results presented in this report are calculated as the aggregate response to a survey question, i.e., the sum of all positive and negative responses. For example, a survey question may ask: "Have you increased or reduced investment in your company in the last 12 months?". The breakdown of responses is as follows: 51% "Increased", 39% "Remain Same" and 13% "Decreased". The aggregate response to this question is calculated as the sum of the positive and negative sentiment expressed in the question: 51% - 13% = 38%. The neutral response, "Remain Same" is not considered.
